SEATED

Meaning 'to sit at ease' in Japanese, ANZA is a collection comprising a pouf, bench and coffee table. The generous floating cushion allows for dynamic seating while the soft outlines create a warm and sophisticated atmosphere.

With the possibility of upholstering with a range of textiles according to our pricelist, ANZA collection is easily adapted to any room such as bedroom, living room, hallway or foyer. To complete the seating ensemble, with its oak finishing, Fukusade and Pereira have also added their low coffee table based on a similar design vocabulary and featuring a durable white or black marble top. This collection aims at enhancing both domestic and public environments.

The CROFTON stool collection gives an understated nod to elegant Asian design traditions whilst embracing honest, natural pinewood. Pine is one of the most common types of wood in the Nordics and it paves the way to working with local materials in the design of new Scandinavian furniture.

In many ways, the material has become a key feature of the CROFTON stool. By working exclusively with the highest quality of pine, and refining its natural look with great attention to detail e.g. by following the grain of the wood in placing each piece and working with a subtle wood stain for a smooth and elegant surface expression. Another winning feature of pine is how well it ages, the more you use it, the more beautiful its surface will become.

The TOKIO desk lamp was introduced back in 1980 by Shigeaki Asahara and is now relaunched by PLEASE WAIT to be SEATED. Asahara has an eye for the classic and elegant yet with a great sense of functionality and flexibility. While the desk lamp has preserved its essence it has entered a contemporary universe wherein it has been slightly challenged on its rigorous idiom to shake things up a bit. Beside enabling dimming the intensity of the LED light the spherical dimmer ball allows the user to get tangible in a time where the significance of tactility is descending. Imparting both adjustable light intensity and adjustable inclination, the TOKIO desk lamp serves perfectly well as both a work light and a cosy reading lamp.

The HARDIE stool is a clean-lined and no-nonsense piece. The stool is made of three identical bent metal tube columns and a seat. The tubes pair up where they join, adding rigidity and stability to the design. The HARDIE stool is a versatile addition to any space and is offered in low stool, counter, and bar height. The seat is offered upholstered in leather and also available with a natural ash wood seat or stained black.

PODGY pendant

Design by KRØYER-SÆTTER-LASSEN

Inspired by a photographer's use of light equipment, PODGY strives to create an accurate illumination that serves the needs of everyday life. By combining several classic elements from Scandinavian design heritage with a refined expression focusing on composition and materiality Krøyer-Sætter-Lassen has put PODGY into a contemporary present.

Integral to PODGY is a honeycomb aluminium structure that casts a pleasingly diffuse light while also providing directed illumination. The honeycomb array was originally used by photographers to generate a soft and controlled light in the studio.

The spherical dimmer on top of PODGY lets you adjust the density and intensity of light, besides changing the look and feel of the lamp, creating a playful interaction between the lamp and you.

Clear, no-nonsense lines and a sturdy steel frame. Faye Toogood has an eye for removing clutter, and her sculpted designs celebrate the rural past even as they partake of the urban contemporary and look towards the future.

You can see this trademark fusion of traditional and contemporary in the way the sheer lines of the table top (18 mm thin, of Oregon pine, Black or Navy Blue stained ash) seem to float above the subtly rounded black steel or raw aluminum frames.

The TUBBY TUBE table, builds on the motifs of the same designer's iconic SPADE chair, with tubular legs that evoke the down-to-earth strength and practicality of garden implements. The table frame has adjustable feet, to even out crooked floors.

TUBBY TUBE

table

Design by FAYE TOOGOOD

With a recognizable tubular approach, the TUBBY TUBE stool collection builds on the same design language as Faye Toogood's iconic SPADE chair. "Tubby yet elegant" is the way to describe the TUBBY TUBE stool collection of three heights. A unique composition of bulky round tubes with a wooded seat or a chunky soft seat pad - a play on volume meeting a tubular frame that creates a classic yet contemporary expression. Place the stools by your kitchen counter, in a bar or restaurant or wherever you need comfortable yet elegant seating spaces.

We at PLEASE WAIT to be SEATED are big fans of exoplanets, so we love this radiant group. You decide the various combinations of colour and size that orbit the still centre of the array. It's not often you get a chance to create your own orrery.

Interaction is the core of the system. The discs are magnetically attached, so you can change their configuration to suit each space: child's mobile or kitchen illumination, study, hallway or living room. The indirect light casts a soft glow – positioning the powder-coated steel discs on the steel bar of the gnomon affects the play of light and shadow as they orbit and eclipse. Light is, after all, a form of clock.

The eponymous AHM chair combines the sleek lines of early-'50s Danish design with a contemporary angle. Each natural ash wood piece is a subtle mix of straight and curved, and a versatile addition to the home, office or public space.

Light, elegant, tactile, stackable, practical. Natural ash, Black, Navy Blue, Ash Grey or Indian Red, with a seat of classic rattan or upholstered with fabric or leather. Beautiful, functional, organic, and with a smooth and stylish character that can enhance your personal space or add flavour to a restaurant, café or corporate setting.

The KEYSTONE holds the arch, one of the oldest and strongest and of all architectural forms. The KEYSTONE lounge chair comprises three autonomous yet symbiotic elements: a concrete back that buttresses the spine, a gently curving, ceramic arch for your sit bone, and the wedge-shaped rubber voussoir that supports and completes the arch.

The chair was originally a 450-kilo sculpture, exhibited at a Milanese art gallery in 2014. PLEASE WAIT to be SEATED approached its Dutch designers, OS & OOS, and said, "Why not get this down to 30 kilos and upholster it? Turn it into a comfortable and practical piece of furniture?".

The KEYSTONE lounge chair has since become a collectors' item, sold to galleries, contemporary art showrooms and modern business across the globe.

Anything named after the famous “Bondi beach” will have the waveform at its heart like the Australian designer Fräg Woodall’s hometown Sydney. The BONDI chair is inspired by his earliest memories of watching artisans at work, fascinated by the way they joined and fitted timber. The seat is neat, precise and no-frills, with a crisp, beach-friendly curve. A touch eccentric yet witty, fresh and confident, this is a hard-working, cheerful and characterful chair that would sit just as comfortably in a busy restaurant or café as in a kitchen or dining space at home.

NOUVEAU PIN

pin board

Design by ALL THE WAY TO PARIS

This pin board could be an organizer. School objects in one area, work objects in another. Appointments, 'to do' lists, flyers, numbers, whatever. If you need to Mondrianise your life. Or use it as a mood board – photos, tickets, recipes, fun.

The pin boards come in three different sizes and can combine to create a dynamic landscape for presentation, composition and decoration. Clean-lined, multifunctional but flexible. The foam and textiles have been specially engineered to provide soundproofing, so the NOUVEAU PIN softens the acoustic signature of any space it adorns.

We look for the right angle, take a perspective, engage in reflection. It's the door to another world. MIMESIS is an ancient Greek term that touches on the aesthetics of imitation and mimicry, and the tension between appearance and reality. MIMESIS is also said to be the "soul" of an artwork. With its strong, clear lines the MIMESIS mirror frames an asymmetrical image of its surroundings, and become a reflected decoration on your wall.

The basic idea of the ARQUI rugs is to get inspired by abstract architectural images from unknown places and spaces. The two designs have been created as a collaboration between Please Wait to be Seated and Ouur Media (the people behind Kinfolk Magazine).

These architecturally inspired rugs made from thick weaved wool and viscose, are ideal for gracing the walls or floors of a living room or foyer, boardroom or bar. The heavy texture helps to transform the acoustic signature of any environment, whether they're hung on a wall or spread on a floor.

All the pieces in this collection are hand-woven in India by master artisans who have perfected their skills through generations. The rugs are products of the CARE & FAIR initiative that helps to fight illegal child labour and contributes towards the welfare of children and weavers' families in the carpet weaving areas.

SPADE

chair

Design by FAYE TOOGOOD

We didn't choose this just so we could say, "We dig this chair." No more puns, promise (even though its designer's name is Toogood). The Spade chair harks back to the English rural tradition and an agricultural economy interleaved with everyday life. With a background in the art industry, the British-born Faye Toogood rejects the sentimental view of the countryside in favour of a celebration of hard-wearing functionality.

This hardy chair suggests the handle of a spade as well as the classic, three-legged milking stool. It's a working piece. You can pile your towels on it in the bathroom, or unlace your muddy boots in the hallway. The shallow concave of the oval sit surface can be a stained Navy Blue, Turmeric Yellow or left in its original, natural ash colour.

An ode to the English countryside.
Or perhaps an elegy?

This cheeky table lamp is just asking to be touched. We think it looks like a shepherdess or an angel. Or an oyster. A classic, simple expression. Definitely a 'she'. As with all our designs, tactile interaction is key. The soft light from the hidden LED bulb reflects off the inside of the bowl. Just tilt her 'face' to turn her on or off, brighter or dim.

The BLOOPER is ideal for what the Danes call "krinkelkroge", or nooks and crannies – adaptable and easy to move around, she can provide an intimate living room and bedside ambience or spotlight a working surface. If you feel your life has too many corners, this lamp is the perfect antidote.

Kanso – a Zen approach that views simplicity as the heart of enlightened living, and the grace and beauty that emerge when clutter fades away.

An understated, even austere, metal frame (in Fig Purple or Black) bears the trays, made from black-stained ash wood. Easy to fit together, adapt and transform, the KANSO coffee table is an elegant study in sculptural form and no-nonsense function. It works as a stand-alone assemblage, either as a practical and versatile side table or as a focus and centerpiece for the living room.

Uncomplicated and minimalist, the effortless of Laura Bilde's finished pieces is testimony to the precision, passion and hard work that imbues them.

The KANSO tray table has an understated, even austere, metal frame that bears the trays, made from stained black ash wood. Easy to fit together, it's a sturdy yet elegant expression of sculptural form and no-nonsense function. It works as a stand-alone assemblage or a practical side table, and the trays can be turned to shape the ensemble into fresh patterns. The trays can be used on their own, to serve your friends, frame a dish or show a flower.

KANSO coffee table & KANSO tray table

Simple doesn't have to be uniform, and regular needn't be predictable. These box-shelves certainly come at you from an angle. Distinctive cutaways let you see and access the contents from the side, and their unusual lines mean they work great as an ensemble. Rotate one 90 degrees, and the amount of light entering the box subtly changes.

Treat your wall as a canvas by mixing and matching colours – the backplate is magnetic and easy to remove. Whether you're going for cosy, fresh or classic, restrained or exuberant, each colour casts its own aura, depending on the light striking the different colours of the powder-coated steel backplates.

On their own or in combination, they're a striking blend of the practical and aesthetic, a modular shelf system. Straight? No. Straightforward, yes. *'skewed'

TRIPTYCH literally means 'threefold'. This table has been particularly inspired by Francis Bacon, who used the form to show a single subject in three different ways. The three components can make up a distinct unity, nested like a matryoshka doll (a table [inside a table {inside a table}]). Or unfolded to reveal their interlinked parts.

When you pull the tables out, the curving, airy 'n' of their frames take on a distinctive and dynamic wave-form. These lacquered, Navy Blue or Cedar Green steel frames support a trio of table tops in marble. Giving every surface a unique, unparalleled swirl.

BLOOPER table lamp creates its own light space, when the light from the invisible LED is bounced and reflected as indirect light behind the circular disk. By rotating the disk, which serves as both switch and dimmer, the light reflection goes from being turned off, to gradually ascend to the full reflection output by a simple, manual gesture. All steel parts of BLOOPER table lamp are made by traditional techniques from bygone times, mixed with the newest innovation of LED.

The multifunctional board is built on rectangular grids inspired by the lines of modern urban structures and the idea of the surface as an arena for composition and decoration. NOUVEAU PIN is designed as a flexible module system of 3 sizes of pinboards, within which you can add to your pinboards and create as big a pinboard as you need. Use it for decoration, organization or just as a beautiful object to complement your home or office. Also the NOUVEAU PIN has an acoustic sound absorbing effect.

MIMESIS MIRROR Width: 43 cm Length: 70 cm Height: 8,5 cm Weight: 6 kg	Width: 53 cm Length: 81 cm Height: 18 cm Weight: 8 kg	Mirror: Glass Frame: Powder coated steel

We look for the right angle, take a perspective, engage in reflection. It's the door to another world. MIMESIS is an ancient Greek term that touches on the aesthetics of imitation and mimicry, and the tension between appearance and reality. MIMESIS is also said to be the "soul" of an artwork. With its strong, clear lines the MIMESIS mirror frames an asymmetrical image of its surroundings and become a reflected decoration on your wall.

The KANSO tray table is inspired by Japanese aesthetics, architecture and culture. The name refers to one of seven characteristics from Zen Buddhism's describing the simplicity in the ritual way of living. A simple metal frame forms the base for two minimalistic trays made in stained black ash wood, which together create a sculptural and timeless table that calls for flexible use. Use KANSO tray table as the perfect side table in any interior or use the turnable trays alone for serving or as a beautiful platform to frame your favourite items.

The BONDY chair is inspired by Fräg Woodall earliest memories of watching artisans at work, fascinated by the way they joined and fitted timber. The seat is neat, precise and no-frills, with a crisp, beach-friendly curve. A touch eccentric yet witty, fresh and confident, this is a hard-working, cheerful and characterful chair that would sit just as comfortably in a busy restaurant or cafe as in a kitchen or dining space at home.

Clear, no-nonsense lines and a sturdy frame. Faye Toogood has an eye for removing clutter, and her sculpted designs celebrate the rural past even as they partake of the urban contemporary and look towards the future. You can see this trademark fusion of traditional and contemporary in the way the sheer lines of the table top (17 mm thin, of oregon pine, stained navy blue or stained black ash) seem to float above the subtly rounded black steel or aluminum frames. The TUBBY TUBE dining table, builds on the motifs of the same designer's iconic SPADE chair, with tubular legs that evoke the down-to-earth strength and practicality of garden implements. A distinctive and enduring artefact that would suit your dining room, or your meeting room.

The design have been created as a collaboration between PWbS and our friends at Our Media (founders of Kinfolk magazine). These limited edition, architecturally inspired rugs, thick weaved rugs, are ideal for a snug childhood space or a teen's private room. They can even grace the walls of a living room or foyer, boardroom or bar. The heavy texture helps to transform the acoustic signature of any environment, whether they're hung on a wall or spread on a floor. All the pieces in this collection are hand-woven in India by master artisans who have perfected their skills through generations.
